

National Honor Society Application Process:

- In January, an information meeting will take place. Students interested submit their names, and their GPA is checked. The GPA requirement is 90.
- Students who meet the GPA requirement are contacted to attend a second informational meeting. Students will receive access to an online candidate packet. This packet requires students to describe their commitment to community service, detail their involvement in co-curricular activities, and distribute recommendation forms to each of their teachers.
- Candidate packets are submitted by a deadline. Then, all candidate applications are reviewed by a faculty council who determine collectively if each candidate meets the requirements.
